

# ANALYSIS OF TECHNOLOGY TRENDS

JAGADISH VARRE

24-03-2022

# OUTLINE

---

- Executive Summary
- Introduction
- Methodology
- Results
  - Visualization – Charts
  - Dashboard
- Discussion
  - Findings & Implications
- Conclusion
- Appendix

# EXECUTIVE SUMMARY

---

- Current Technologies like Programming languages, Databases, Web frames used.
- Trend for the future usage of the above-mentioned Technologies.
- Demographics of Respondents based on their Age, Gender and Nationality.

# INTRODUCTION

---

- To find the most used technologies and also best for future developments based on the survey results.
- Technologies include :
  - Programming languages
  - Database
  - IDE's & Web Frames
- Demographics from population of different Countries to know the overall productivity
- Audience:
  - HR Department
  - ARCHITECT Department

# METHODOLOGY

---

- Extracting the data
- Wrangling
  - Removing the duplicates
  - Finding the empty cells
  - Replacing those with mean / mode values
- Analyzing data with charts
- Visualizing data with different plots
- Using IBM Cognos Dashboard to display results

# RESULTS

[17]:

	index	Respondent	MainBranch	Hobbyist	OpenSourcer	OpenSource	Employment	Country	Student	EdLevel	...	SOPartFreq	SOJobs	EntTeams	SOComm	WelcomeChange	Age	Trans	Dependents	SurveyLength	SurveyEase
0	0	4	I am a developer by profession	No	Never	The quality of OSS and closed source software ...	Employed full-time	United States	No	Bachelor's degree (BA, BS, B.Eng., etc.)	...	Less than once per month or monthly	Yes	No, and I don't know what those are	No, not really	Just as welcome now as I felt last year	22.0	No	No	Appropriate in length	Easy
1	1	9	I am a developer by profession	Yes	Once a month or more often	The quality of OSS and closed source software ...	Employed full-time	New Zealand	No	Some college/university study without earning ...	...	Less than once per month or monthly	No, I knew that Stack Overflow had a job board...	No, and I don't know what those are	Yes, somewhat	Just as welcome now as I felt last year	23.0	No	No	Appropriate in length	Neither easy nor difficult
2	2	13	I am a developer by profession	Yes	Less than once a month but more than once per ...	OSS is, on average, of HIGHER quality than pro...	Employed full-time	United States	No	Master's degree (MA, MS, M.Eng., MBA, etc.)	...	Less than once per month or monthly	Yes	No, I've heard of them, but I am not part of a...	Neutral	Somewhat more welcome now than last year	28.0	No	Yes	Appropriate in length	Easy
3	3	16	I am a developer by profession	Yes	Never	The quality of OSS and closed source software ...	Employed full-time	United Kingdom	No	Master's degree (MA, MS, M.Eng., MBA, etc.)	...	Less than once per month or monthly	Yes	No, I've heard of them, but I am not part of a...	Yes, somewhat	Just as welcome now as I felt last year	26.0	No	No	Appropriate in length	Neither easy nor difficult
4	4	17	I am a developer by profession	Yes	Less than once a month but more than once per ...	The quality of OSS and closed source software ...	Employed full-time	Australia	No	Bachelor's degree (BA, BS, B.Eng., etc.)	...	A few times per week	No, I didn't know that Stack Overflow had a jo...	No, I've heard of them, but I am not part of a...	Yes, somewhat	Just as welcome now as I felt last year	29.0	No	No	Appropriate in length	Easy

# PROGRAMMING LANGUAGE TRENDS

TOP 5 CURRENT LANGUAGES

TOP 5 DESIRED LANGUAGES NEXT YEAR

# PROGRAMMING LANGUAGE TRENDS - FINDINGS & IMPLICATIONS

---

## Findings

- Javascript is still at the top
- HTML/CSS doesn't vanish completely
- Python was emerging very fast

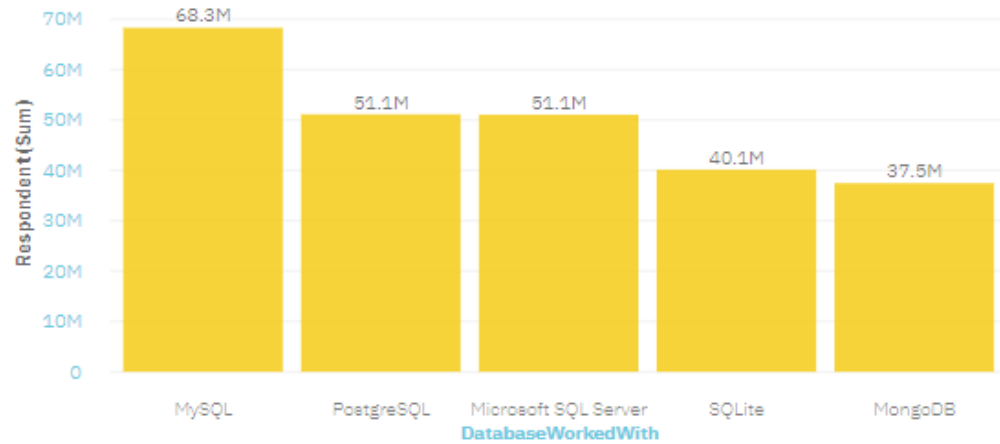

## Implications

- Web development still depends on Javascript, HTML/CSS
- Python's growth indicates, it can be an alternative to above 3 very soon
- SQL finds its way and will be playing a key role

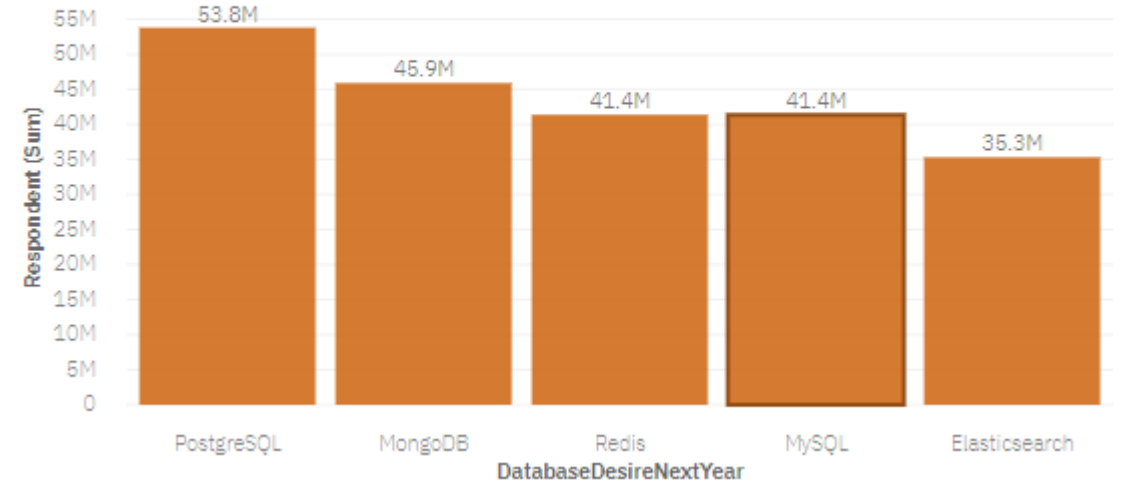

# DATABASE TRENDS

TOP 5 CURRENT DATABASES

TOP 5 DESIRED DATABASES FOR NEXT YEAR

# DATABASE TRENDS - FINDINGS & IMPLICATIONS

---

## Findings

- MySQL demand is slightly varying but still stands among the top
- PostgreSQL is currently in good demand and increase in demand for next year
- SQLite is replaced with REDIS and Elasticsearch

## Implications

- Relational databases still hold importance, shows many companies still work with them
- On the other side, rise of PostgreSQL shows the interest of companies in it
- REDIS rise shows that companies interested in efficiency than speed of operation

# DASHBOARD

## RESPONDENTS BY GENDER

Gender  
● Woman ● Man

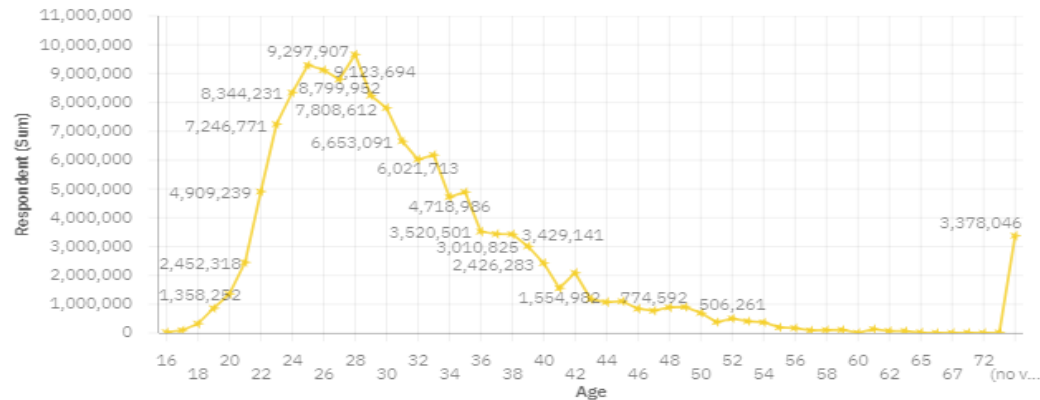

## RESPONDENTS BY COUNTRIES

Respondent (Sum)  
865 38,170,293

## RESPONDENTS BY AGE

## RESPONDENTS ED LEVEL BY GENDER

EdLevel  
● Associate degree ● Bachelor's degree (BA, BS, B.E...) ● I never completed any formal ...  
● Master's degree (MA, MS, M.E...) ● Other doctoral degree (Ph.D, E... ● Primary/elementary school  
● Professional degree (JD, MD, e... ● Secondary school (e.g. Americ... ● Some college/university study ...

# DISCUSSION

---

- Following the trends
- Updating the skills
- Increasing the Percentage of women working
- Training Countries which are under developed

# OVERALL FINDINGS & IMPLICATIONS

---

## Findings

- Certain Technologies still hold good place in comparison to new ones.
- Gender inequality is clearly visible
- Gradual decrease in employment in terms of increasing Age

## Implications

- Companies need to keep their base technologies and update their employees skillset based on trend.
- This inequality can be a factor for the under development of the country
- Constant increase in new technologies can be a factor for taking young people

# CONCLUSION

---

- Current & New Trends in Technologies
- Under- developed Countries in terms of Technology
- Gender Inequality
- Companies Interest in Young People

# APPENDIX

Languages used from the countries which has least respondents, which shows to what extent they need to update skills in order to compete with developed countries

	Country	Number_of_people	LanguageWorkedWith
0	Iraq	2	Dart
1	Libyan Arab Jamahiriya	3	Assembly
2	Republic of Korea	3	Java
3	Cape Verde	4	C#
4	Somalia	4	C#
5	Brunei Darussalam	5	C#
